Graduate Business Curriculum Roundtable In The News

Committees and Learning Communities Available for Members

Committees	Action
Alternative Credentials Learning Community This Roundtable Learning Community focuses on member business schools who have or are developing alternative credentials (certificates, badges, etc.) as part of their graduate business programs' curriculum. Roundtable learning communities meet virtually every few months to discuss and share their innovations, challenges and opportunities as well as support the Roundtable in developing programming, research and events to support innovations in the alternative credential space.	Join
Research Committee Support the Roundtable's research initiatives. Join the Roundtable's Research Committee to advise on potential research initiatives and topics, review research surveys prior to release and review research results as needed. The Research Committee meets virtually on a quarterly basis and as needed based upon ongoing research initiatives.	Join View Roster
Specialty Masters Learning Community This Roundtable Learning Community focuses on member business schools who have or are developing specialized masters as part of their graduate business programs portfolio. Roundtable learning communities meet virtually every few months to discuss and share their innovations, challenges and opportunities as well as support the Roundtable in developing programming, research and events to support innovations in the specialized masters space.	Join View Roster

5. Watch your email for meeting invites for upcoming learning community and committee events. If you have any questions, please email info@gbcroundtable.org.
